Take a look at this unique 102-acre parcel for sale on the outskirts of Danville VA. This property is split up into 2 parcels on featuring +/- 62 acres and the other making up the remaining +/- 40 acres giving you tons of options! This would enable the new owner to build a house on one and develop the other into their ideal hunting property. Or perhaps you want to have not one but TWO honey holes to hunt in which this property would enable you to do. The property was clear cut in early 2023 leaving only the hardwoods around the creek bottoms. This also created many logging roads through the property that with a little work could create great access from front to back! Leaving the hardwoods in the creek bottoms also will serve as a funnel for wildlife in the area making it a great spot to setup your stand to catch game coming through.

This property is also convenient to town being only 20 minutes to the heart of Danville and 23 minutes to the heart of Martinsville VA. Both towns provide many amenities for everyone.
